Metodología-2006

Metodología ese:o

A través de la metodología de trabajo y la plataforma virtual, se posibilita una labor interactiva entre pares, en la cual se realiza el desarrollo de habilidades dialógicas (trabajo en equipo) y metacognitivas (aprender a aprender) mediante la escritura y la lectura guiada de textos. A través de la corrección entre pares, o -micro-role playing- se ayuda a generar redes de apoyo para el aprendizaje y fomenta el aprendizaje asistido, siguiendo las fases definidas en la metodología.

Al involucrar a los alumnos en las tareas propias de planificación, escritura y edición textuales, se busca, además, generar habilidades sociales pertinentes para el éxito en la vida académica, estas son, puntualidad, rigor, prácticas de trabajo en equipo que potencien relaciones de cooperación entre los/las estudiantes y manejo eficiente y honesto de fuentes.
