THE MODEL

DATA.

ACTION.

ADVOCACY.

A nationally-led, evidence-based, multi-sectoral response creates meaningful results at scale.

Quality, comprehensive data helps in understanding the problem, guides effective policies and programs, and spurs action.

Targeted and strategic advocacy and communications raises awareness, improves data use for effective action and sets global and national agendas.

WE ARE NOW WORKING IN 21 COUNTRIES

Through the VACS, we now have data for more than 10% of the world's adolescents and young people

RESULTS: 14 COUNTRIES HAVE PUBLISHED A VACS REPORT

- VACS Core Questionnaire updated to align with SDGs
- VACS datasets publicly available for **7 countries***
- Recent VACS reports:
 - Honduras & El Salvador launched their VACS report in May 2019
