

Rabbits for Resilience - DRC

Microfinance/productive asset program with parent and young adolescent collaboration to strengthen economic security, health and relationships

- ↑ Food security
- ↑ Prosocial behaviors (listens to, respect, helps others)
- ↑ Asset Building (new and complementary economic initiatives)
- ↑ School Attendance (missed fewer days of school in past month)

“It helps me with a lot of things – not going to bed hungry, being able to return to school, purchase clothes, and not wondering in the streets because I don’t have anything else to do”
